

Air Curtain:

An operational permit is required for the kindling or maintaining of an open fire or fire on any public street, alley, road or other public or private ground. This permit will only be issued in conjunction with an Air Curtain Permit from the Metro Nashville Health Department.

Conditions of this permit are as follows:

- Obtain an Air Pollutant Source Operating Permit from Metro Health Department.
- All land clearing material must be kept below the “air curtain” at all times.
- Do not overfill the pit at any time.
- Place the material in the pit: do not push the material into the pit.
- All ash must be saturated with water before removal from the pit.
- Permit is only valid on days when the air quality is in the good or moderate range (as determined by the Health Department), burn restrictions are not in place, or as otherwise specified by the Health Department or NFD.
- Inspection may be required.

During the application process be prepared to upload the following document:

1. Air Pollutant Source Operating Permit from Metro Health
